

Self-Referral Hearing Aids Pathway - Patient Information

Within the South West Hampshire area we are continually working to improve hearing loss services. We are therefore delighted that we have been able to introduce a Hearing Aids Self-Referral Pathway.

This self- referral pathway is for **patients that are over 55 years** and who are most likely to be suffering with age related hearing loss.

There are a number of clinic based and high street providers to choose from. Please see below website links to their audiology pages for you to select the best location for you.

- **Specsavers** <https://www.specsavers.co.uk/hearing>
- **Scrivens** <https://scrivens.com/hearing/>
- **In Health** <https://www.inhealthgroup.com/locations-2/>

Once you have selected a provider please make contact with the branch to arrange an appointment. All of the providers above will be able to guide you through the pathway if you meet the criteria. There is no need to make an appointment with your GP.

Please note that patients are expected to remain with their chosen provider for a minimum of 3 years.
